Hi Leslie, we have incorporated your language into a redline copy, along with other edits discussed last week. I understand that Larry Silver will be sending it to Jim Morris soon, thanks

Julian Hayward

Subject: SDDL SOW for RIFS

Julian,

To follow up on our call last Friday, here's my proposal for the 3rd sentence of the 1st paragraph on page 2:

OUI, as defined in the ASAOC and this SOW, includes all areas of the Site potentially used for waste disposal (see Figure 1 of this SOW) including all media including but not limited to waste, soil, groundwater, leachate, surface water, landfill gas and soil vapor within and beneath the extent of the waste.

The definition of OUI in the AOC will be modified to:

k. "Operable Unit One" or "OUI" shall mean all areas of the Site potentially used for waste disposal (see Figure 1 of the Statement of Work) including all media including but not limited to waste, soil, groundwater, leachate, surface water, landfill gas and soil vapor within and beneath the extent of waste.

Check with your group and let me know if that works. I think the attorneys have worked out the AOC language, so the things we discussed on Friday seem to be the last of the loose ends.
Thanks.

Leslie Patterson
